

# HOW TO MAKE A SNOW MAN

Find the snowman (made out of a tube) that has already been made or a picture - to use as your guide

Take a tube and a pleat of cotton wool. Stick the cotton wool around the tube.

Draw around one of the hat templates, cut it out and stick at the top of the tube

Then stick on some eyes and draw a mouth

Then cut off some red crepe paper to make a scarf. Once you have done this – stick the scarf around the tube under the mouth

Then draw on some buttons using a felt tip pen
